

# NEW ALUTAF

## THE ALUMINIUM REVOLUTION

### ANTI-CLOGGING TECHNOLOGY

The stearate top-size coating reduces aluminium chips adhesion to the cloth

### UNIQUE DESIGN

A double flap configuration combining two specific cloths designed by TAF with distinct backings to yield maximal cutting speed and longer working life

### UP TO THE LAST GRAIN

The special double flap configuration coupled with anti-clogging technology allows to consume the disc to the full

### TIME AND MONEY SAVINGS

Fewer tool changes, quicker processing of work pieces and reduced costs

#### FLAT DISCS

Item	Diameter mm	Bore mm	Grits		Packing	Max rpm
			60	40		
ALU101	115	22	■	■	20	13200
ALU103	125	22	■	■	20	12000

#### TAPERED DISCS

Item	Diameter mm	Bore mm	Grits		Packing	Max rpm
			60	40		
ALU102I	115	22	■	■	20	13200
ALU104I	125	22	■	■	20	12000
